

We're ready on the spot to help you regain a head start even in the most urgent situations.

Support for Go-Live, Hypercare & Ramp-Up

„Operations Enablement“:
We step in exactly where your need is most pressing.

Immediate start of our Key Users

We create training concepts, enable your key users and support operations with our own staff.

Lead & Execution of Testing Activities

Test management & execution is our everyday business. As neutral third party between customer & service provider, we can also take over testing obligations.
